THE PROTECTION OF VULNERABLE GROUPS IN THE EU LEGISLATION

23rd APRIL | aula V | 9.00-12.00 / 14.00-17.00

The course aims to raise awareness and improve the knowledge of the legal standards that protect and promote rights of the most vulnerable groups such as children and youth in Europe. It is a point of reference on both European Union (EU) and Council of Europe (CoE) law related to these subjects, explaining how each issue is regulated under EU law, including the Charter of Fundamental Rights of the European Union, as well as under the European Convention on Human Rights (ECHR) and other instruments. In the course the notion of vulnerability under EU and international law will be discussed, and references will be made to the current happenings in Europe such as migrant crisis and children's rights situation of refugee seekers. A big attention in the course will be paid to the notion of mainstreaming of children's rights in the EU legislation, which is one of the tools to achieve comprehensive protection and promotion of children's rights in Europe.
